The Rocksical "DIE HARZ- SCHUETZEN"

tells the story of Aennchen Wohlgeboren and Tilmann Ströbling of Meisdorf, who escaped their hanging and damage of their village and managed to hide in the woods around Auerberg near Stolberg. In the shed at the Auerberg starts

the new saga of the Harzschuetzen. They force their enemies and authority with boldness and daringness to get allowances and respect which last till now.

You can experience in the pictorial settings of the Stolberg castle great adventures with terrific actors, musicians and special effects.
